ABN 49 656 785 732

OUR AIM

To support individuals with mental illness & disabilities in gaining access to the NDIS free of charge. Once access is met, our sister company Bloved Care will continue with NDIS support. Clients will also be linked with a Support Coordinator of their choice. Recommendations will be provided but cannot be enforced.

Transitioning to Bloved Care offers security and stability for our clients to keep the process running smoothly. Should a client request another provider for NDIS Support, their Support Coordinator or Bloved Care staff can assist.

Daly Access was born to carry the torch for future NDIS participants so they can receive the support they truly deserve.

EXPERIENCE

Director, Adrian Daly has 6 years experience in mental health and experience in general management, support coordination & support work.

Adrian has worked as a NDIS Access Specialist for a now-defunct NDIS access program.

REFERRALS

We're inviting you to join us in our venture by referring clients in need of NDIS support to us via the email address: info@dalyaccess.com.au. Upon receipt of a referral, we will meet the client to assess eligibility for the program and see to the required paperwork.

SUPPORT OFFERED

Daly access is not a psychosocial provider, but offer support in the following areas:

Intake assessment & Sign up

After the referral has been accepted, a worker will meet a client to assess eligibility for the NDIS. If the worker believes the client is unlikely to meet NDIS access at assessment, we will be unable to continue to the process.

If the worker believes the client is likely to meet NDIS access, the worker will proceed to work through the relevant paperwork which includes:

- Daly Access consent to share information form
- Risk assessment
- NDIS consent to share information form
- NDIS Third Party Consent form

Appointments

Daly Access will book all relevant appointments on behalf of the client with their consent. We will also provide transport solely for the purpose of obtaining evidence from a clinical provider for the NDIS application.

Liaising with the NDIS

To streamline the application process, Daly Access prefers to liaise directly with the NDIS on behalf of the client with their consent. At the appropriate time, the client will be supported by a Daly Access worker to complete an Access Request with NDIS over the phone.

WE LOOK FORWARD TO WORKING WITH AND ARE AVAILABLE FOR ANY QUESTIONS.
